

This is a quick guide to show you how to use Aframe to access the WSSP15 footage and download it. Firstly, go to <u>Aframe</u> in your internet browser to enter your Username and Password. If you do not have login credentials, please contact WorldSkills International for an invitation into Aframe, this will prompt you to sign up.

When you login, you will land on your Dashboard. You will see the WorldSkills São Paulo Project, click on the Project name to enter the Project. If you do not see the Project, please contact WorldSkills International.

If you have any questions about Aframe, please contact our Customer Support team: Telephone: UK +44 (0) 20 7206 4186 | US 1 866 630 8316 | Email: cs@aframe.com

The WorldSkills International team have been working hard to make sure that you can find the clips you need by adding metadata in the form of logs and tags on the video clips. Type a word into the Metadata Filter box, shown below:

You can search for one word or multiple words. Enter an ampersand between words to filter your search by more than one word.

Example: Chenelle & Etienne will return all clips with 'Chenelle Etienne' in.

Click on one or more clips and press the Play button to view the clips. If you wish to download a clip then click the download button, you can download one or more clips at the same time by selecting the clips you wish to download and then clicking the Download button.

When you click the Download button it will ask you if you wish to download the .h264 (Web) or the Original. The .h264 is a low resolution proxy that is not suitable for broadcast, the Original is the original file that was uploaded by WorldSkills International.

If you have any questions about Aframe, please contact our Customer Support team: Telephone: UK +44 (0) 20 7206 4186 | US 1 866 630 8316 | Email: cs@aframe.com

To download from Aframe you will need to ensure that you have Java installed and that it is updated to the latest version.

A new window will open, if you're new to Aframe then we may ask you which Transfer Method you would like to use. If you have a slow internet connection then we recommend selecting HTTP as a transfer method, if you have a good connection then we recommend selecting UDP.

	Choose a transfer mode
https://app.afr	ame.com/projects/worldskills-leipzig-2013/updownloader/mode
Τη	/ the Aframe desktop app! It's fast, smart and easy to use
	Choose a transfer mode
Aframe uses ac cloud as fast as We can also us are as fast but s	celeration technology (UDP) to get your files in and out of our s possible. Unfortunately, some firewalls block this sort of traffic. e old fashioned FTP or plain web traffic (HTTP), neither of which should side-step those blocks.
Which mode we	ould you like to use? You can change modes later.
Fastest but	blocked by some networks (UDP). Recommended.
O Fast and co	mpatible with many networks (FTP).
O Slower but	compatible with more networks (HTTP).
	Set transfer mode
	Set transier mode

The page will then change to allow you to download the media, if you would like to change your Transfer Method, you can! Simply click on 'Change Mode' at the top. Otherwise click the big green button to Download your selection.

If you have any questions about Aframe, please contact our Customer Support team: Telephone: UK +44 (0) 20 7206 4186 | US 1 866 630 8316 | Email: cs@aframe.com

We'll let you know when the Download has finished.

	Download from WorldSkills Leipzig 2013 has finished
https://a	pp.aframe.com/projects/worldskills-leipzig-2013/downloader/18d401f
	Try the Aframe desktop app! It's fast, smart and easy to use
	Download complete!
Т	he assets for 1 clip and 0 documents have been downloaded.
That's it	. You can close this window now.
